**Ivory Outer Mat, Color Mat Inside, Double Matting** (be sure to select one of the above six accent colors)

This technique uses an outer mat of Elegant Ivory with an inside accent color mat with the standard visibility of ¼" width, selected from the above six choices. The additional cost for two mats and positioning is **\$9 extra**.

**Gold Inner, Color Outside, Double Matting** (be sure to select one the above six accent colors)

You may select an inner mat of Old Gold surrounded by a darker, colored mat selected from the above six colors. This provides more of the color and the gold brings out the foil in the RFC logo and the corporate seal in the corner. Especially effective with either of the two frames with antique gold or gold accent. This material combination has a very elegant appearance - additional cost for the gold mat and positioning is only **\$7 extra**.
